3M Bumpon & Resilient Rollstock

High-performance protection,
converted to your specifications.

Bumpers absorb vibration and noise and stick to most surfaces. Bumper protectors are made from polyurethane which offers excellent non-slip properties and will not mark surfaces. Die cut bumper protectors are cut from polyurethane roll material. You decide on the shape and the colour.

There are many die cut application ideas to assist your business productivity and to help reduce costs in material wastage and lower productivity costs. Below are just a few application ideas.

On the bottom of small appliances, electronic equipment, phones, keyboards, speakers and desk accessories. For automotive and board rigidity in printed circuit board assembly. For electronics enables heat dissipation with spacers and stabilise products with non-slip, non-skid feet.

On the bottom of metal or plastic name tags for the office door, glass window.

Bumper protectors serve as high performance feet, stops or spacers.

Clear bumper products are ideal for glass and acrylic cutting boards and other coloured surfaces. Because these clear bumpers are nearly invisible and resist yellowing with age, the product designs remain ageless over time. Additionally they protect surfaces, cushion, prevent marring, slippage and shifting.

For noise and vibration control, the highly durable bumper products are ideal for stops on doors and drawers. These bumpers help absorb impact and noise and have excellent resistance to aging. They will not harden or crack over time.

For cabinetry and woodworking.

Bumper Moulded Shapes

SJ5302: Transparent
Size: 7.9mm x 2.2mm
 A-20 adhesive
Hardness: 75 Shore A

SJ5303: Transparent
Size: 11.1mm x 5.0mm
 A-20 adhesive
Hardness: 75 Shore A

SJ5312: Transparent, True White
Size: 12.7mm x 3.5mm
 A-20 adhesive
Hardness: 75 Shore A

SJ5012: White, Grey, Brown, Black
Size: 12.7mm x 3.5mm
 R-30 adhesive
Hardness: 70 Shore A

SJ5008: White, Black
Size: 12.7mm x 3.1mm
 R-30 adhesive
Hardness: 70 Shore A

SJ5027: Grey, Brown, Black
Size: 16.0mm x 7.9mm
 A-30 adhesive
Hardness: 70 Shore A
