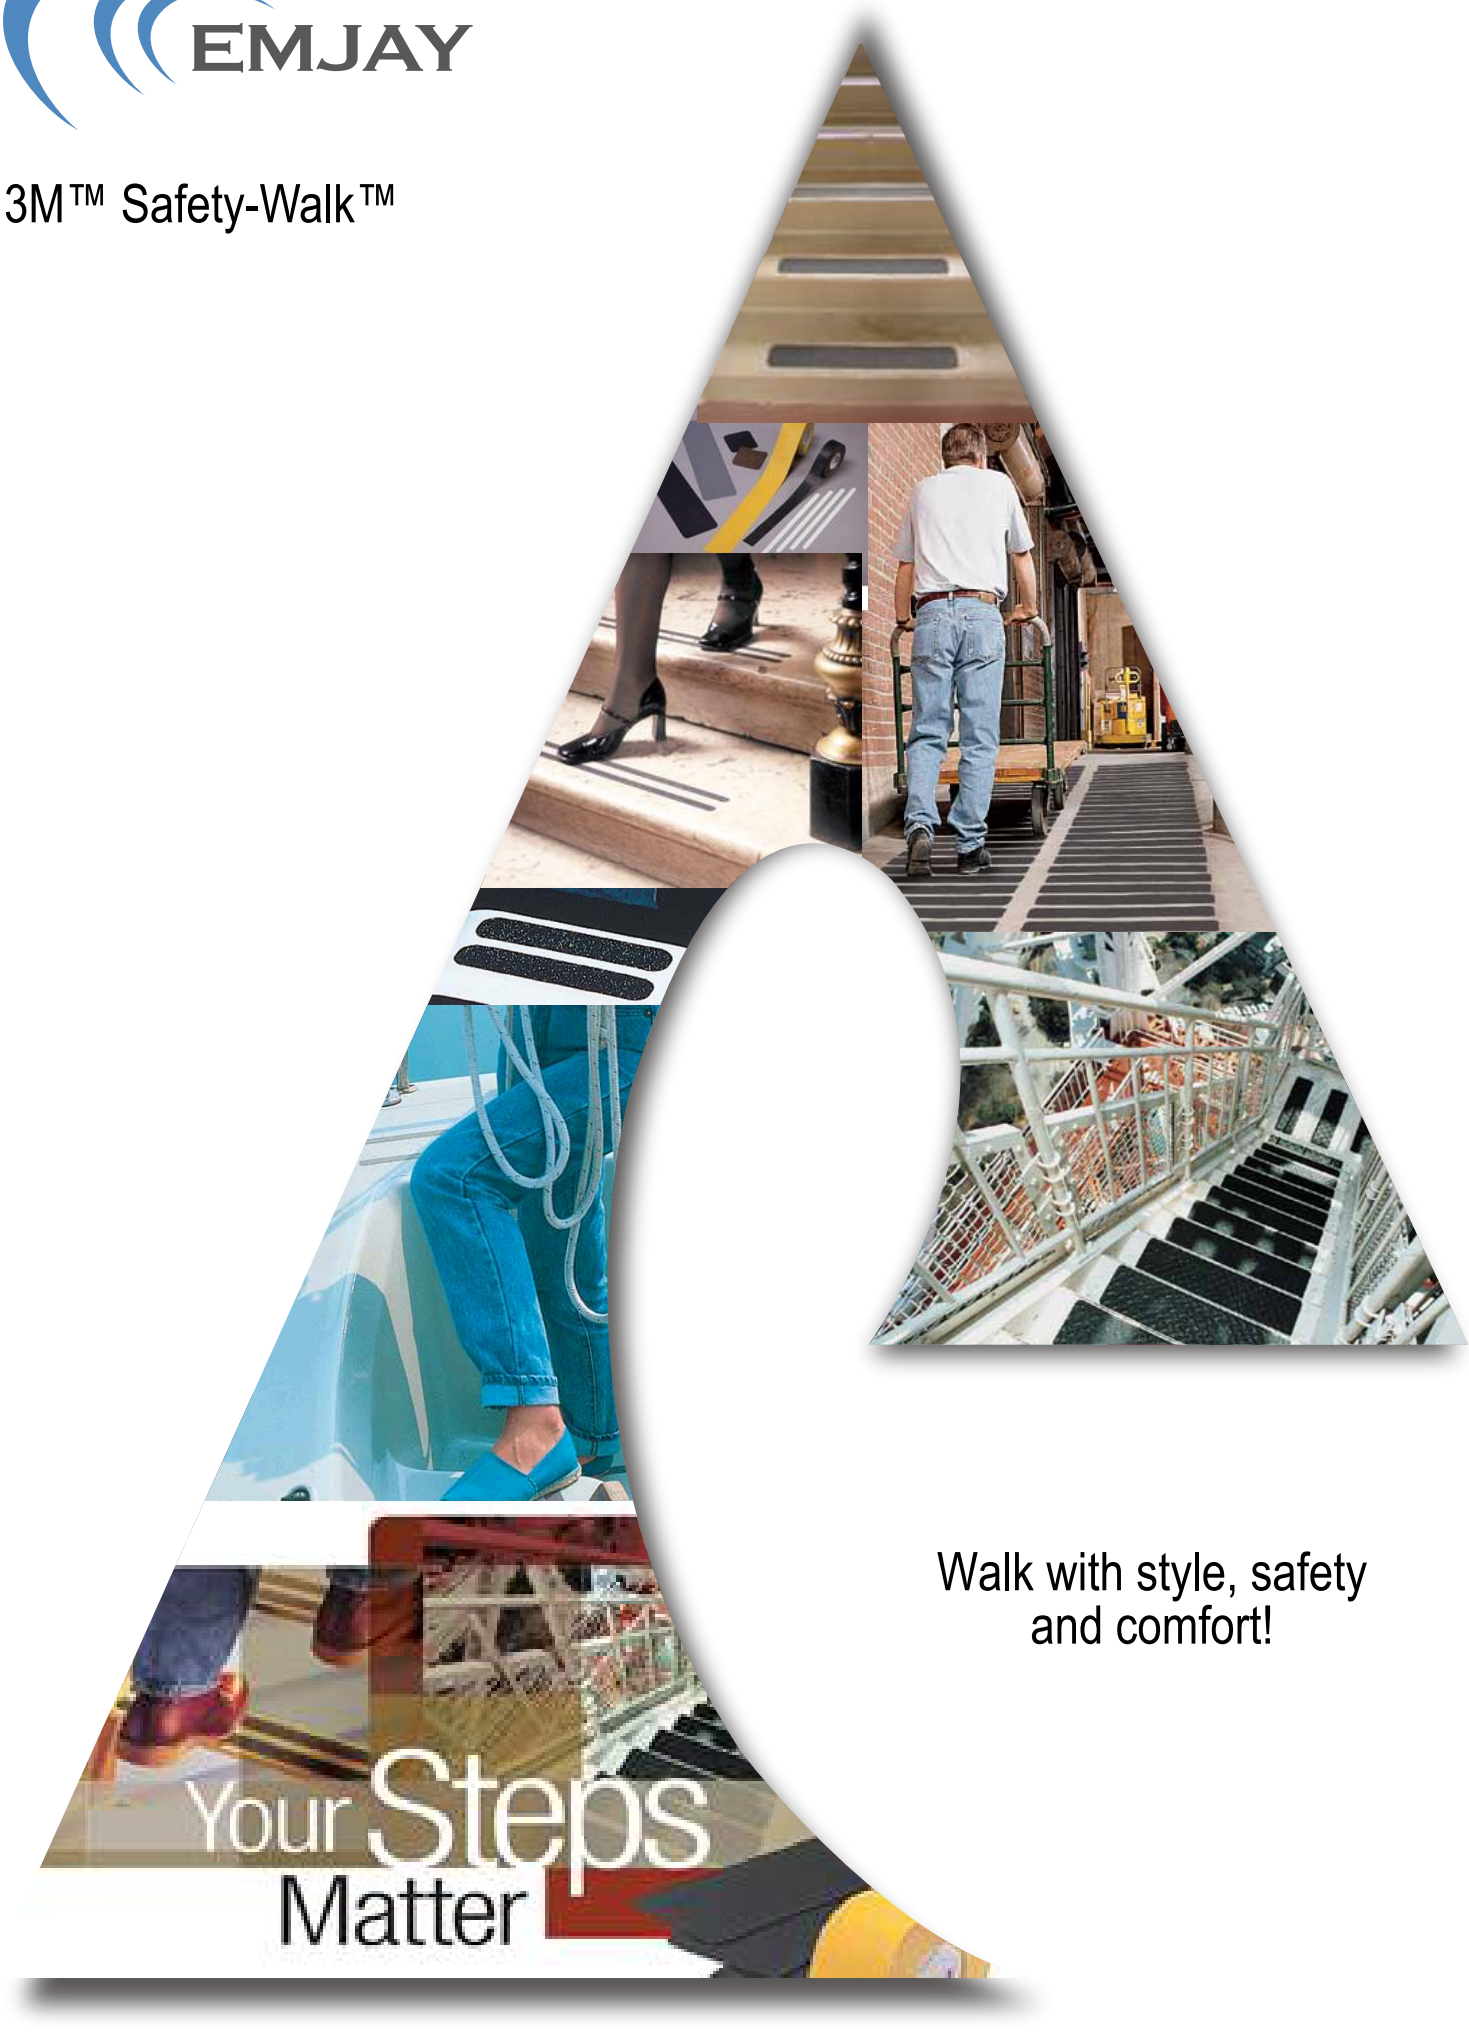
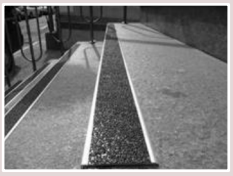
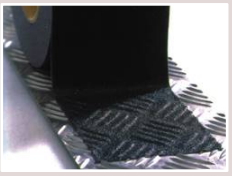
3M™ Safety-Walk™



Walk with style, safety
and comfort!

3M Safety-Walk Slip Resistant Tape comes in a variety of types to suit most situations where additional grip is required. The tape is backed with a pressure sensitive adhesive covered by a removable protective liner for ease of application.





Surface Preparation Summary

For all products the surface must be clean, dry and smooth and above minimum application temperature. Porous surfaces, such as unpainted wood and concrete, should be sealed with 3M primer. For more information on surface preparation, please see application instructions enclosed with all Safety-Walk Tapes.

Recommended Primers

3M 80 Neoprene Contact Adhesive (aerosol) apply 3 light coats to surface, allow to completely dry (5 - 20 minutes). For clear tape or indoor applications, use 3M Super 77 Spray Adhesive.

Standard Widths Available

25, 50, 100, 150, 300, 600, 900mm widths x 18.2 metre lengths. Custom design/non-standard widths: Any shape, design or width up to 900mm x 18.2m in size.

3M Safety-Walk General Purpose

A highly durable mineral, coated slip resistant surface, designed for use in light to heavy shoe-traffic areas.

Main applications: stairs, ramps, entrances, walkways, loading docks, machinery, vehicles etc.

Colours: Black, Yellow, Clear.

3M Safety-Walk Conformable

A highly durable mineral, coated slip resistant surface with aluminium backing which allows the tape to confirm to corners and irregular surfaces. Designed for use in light to heavy shoe-traffic areas.

Main applications: Checker plate, steps, ladders, loading ramps and heavy equipment.

Colours: Black, Yellow.

3M Safety-Walk Medium Grade Resilient

A highly durable non-mineral, medium textured slip resistant surface, designed for use in barefoot or shoe-traffic areas.

Main applications: Showers, bath rubs, around pools and spas, marine crafts.

Colours: Black.

3M Safety-Walk Fine Grade Resilient

A highly durable non-mineral, fine textured slip resistant surface, with a water-resistant acrylic adhesive. This tape is designed specifically for use in wet traffic areas where contact is made with bare skin.

Main applications: Showers, bath rubs, around pools and spas, marine crafts.

Colours: White, Clear.

Converting

Converting to die cutting can add value to any product by increasing design flexibility and freeing designers from many constraints, resulting in higher quality finished products.
