

Product	Thickness (mm)	Colour	Sample	Features/Applications
9473	0.25	Clear		Ideal for use in many interior and exterior industrial applications to replace rivets, spot welds, liquid adhesives and other permanent fasteners.
4910	1	Clear		A clear acrylic VHB tape. It is colourless making it ideal for bonding transparent materials or for applications where a coloured bond line is unacceptable.
5930	0.8	Black		Black closed cell acrylic foam carrier. Conformable foam, providing adhesion to the broadest range of substrates, including most powder coated paints.
4941	1.1	Grey		Multi-purpose acrylic adhesive on both sides of conformable foam. The adhesive provides excellent adhesion to a broad range of high and medium surface energy substrates including metals, glass, and a wide variety of plastics, as well as plasticised vinyl. The conformable foam provides good contact, even with mismatched substrates. Bonds architectural metal panels to frame perimeter, top hat section and stiffeners.
4991F	2.3	Grey		
Spray 300	300g	n/a		3M Spray 300 contains isopropyl alcohol (IPA) which cleans surfaces prior to the application of a 3M tape or adhesive, particularly 3M VHB.
Scotch-Brite Hand Pads	230 x 150	n/a		The most versatile hand pad. Scotch-Brite General Purpose Hand Pad 7447 has excellent denibbing, deburring and mild scale or burn removal properties. The pad produces a medium grade finish, ready for cleaning.

Converting

Converting to die cutting can add value to any product by increasing design flexibility and freeing designers from many constraints, resulting in higher quality finished products.

Safety First!

Do you have the right safety PPE for your employees? When involved with industrial abrasives or aerosol spray adhesives and cleaners, safety glasses or goggles, as well as a respirator may be the workplace safety you need.
